

A-TEK, Inc. Welcomes New Chief Operating Officer

Leesburg, Virginia, March 8, 2011 - A-TEK, Inc. welcomes Gregory Shomo, Chief Operating Officer, to Team A-TEK. Greg joins the A-TEK executive management team with over 25 years experience to include his serving in senior level positions with Lockheed Martin Information Systems, Aspen Med Services, and Hunter Medical, Inc.

As Chief Operating Officer, Mr. Shomo has direct accountability for A-TEK's operating business units with the responsibility for all operations management activities company-wide, to include improving the fiscal and financial performance of the organization, enhancing customer satisfaction and project management effectiveness. As COO, Greg will work directly with the CEO/President in developing the organization's strategic and policy framework to manage the organization's business units as well as the formulation, oversight, and implementation of Operations Management and Contractual activity.

"This strategic hire is part of A-TEK's best effort to hire the best and the brightest as we position the company for future growth within the federal government marketplace. With his extensive background in Corporate Operations, Greg brings a proven track record and a plethora of experience to a growing company like A-TEK. We are thrilled to have him as part of our executive management team", stated Kathryn Freeland, Chief Executive Officer.

About A-TEK, Inc.

Headquartered in Leesburg, Virginia, A-TEK, Inc. provides scientific and information technology services and solutions to Federal government agencies. Founded in 1996, A-TEK offers services and solutions in the areas of National Security and Intelligence, Enterprise IT, Life Sciences, Healthcare, and Law Enforcement. Supporting a myriad of customers across the federal government, A-TEK has over 300 positions in regional and customer site locations in 29 cities across the continental U. S., many of which possess U.S. government clearances.

A-TEK derives 100% of its business from the Federal Government. The company supports contracts with numerous federal agencies, including the U.S. Department of Homeland Security, Department of Health and Human Services/National Institutes of Health, Department of Agriculture, and the Department of Justice.
