1-168	Refurbished Medical Equipment-Phillips SR 7000 CT Scanner Excellent Condition 1995 Model - slip ring system. Volumetric scanning package, low voltage, uni-directional slip ring designed for ultra high speed imaging capacity. Scanner-mounted high frequency inverter generator. Extremely powerful MRC 200 Ct tube with 5.2 Mhu anode heat capacity and 11 kw cooling rate assures uncompromised operation. Dual eletro-lumescent soft key control monitors. Single technologist operation. Many features and options not listed here ask for details. Currently in use in New York Hospital under full service agreement. Gantry Slice count 1,231,000 and X-ray tube count 70,000 (replaced just four months ago) shipping/crating not included	\$224,700
1-169	Send video clips or conference face to face with the Videocam VGA videoconferencing camera. Image capture up to 640 x 480 ppi. USB interface with a 6' cable tog et you up and running in no time. One year parts & labor included.	\$88

All audio and video switching, cabling, racks and misc. hardware is included.	\$259,000.00
1-854	Briefing & Display System, Enhanced Rear Projection #3 - Includes 3 briefing PCs integrated with software for Control System, 3 computer interfaces to add computers, 2 copy cameras, Lectern with touch panel, light and gooseneck microphone, Matrix Mixer, 3 projector monitors, 3 ultra high resolution 1280x1024 native 3 LCD panel Projectors, 3 Pan/Tilt/Zoom cameras, surround playback through 5 wall mounted speakers with subwoofer, 7 installed table microphones, 1 VHS and SVHS playback VCR system, 1 VHS and SVHS recording VCR system, 1 VHS playback VCR system, 3 video preview monitors, 3 video scalers, VTC wall plate, and zoned reinforcement. All audio and video switching, cabling, racks and misc. hardware is included.	\$327,000.00
1-855	Integrated VTC System, Basic - Includes 1 line level audio input, 1 line level audio output, built in diagnostics, CIF resolution images up to 30 fps, echo canceller, full screen VTC, G.711 with 3.1 kHz audio bandwidth using 48-64 kbps of the data bandwidth, G.722 with 7 kHz audio bandwidth using 48-64 kbps of the data bandwidth. G.728 with 3.1 kHz audio bandwidth using 16 kbps of the data bandwidth, GUI interface, H.263 video quality, H.320 as current industry standard for most aspects of VTC over WAN, a 4 BRI IMUX with built in NT1s that include bonding, 512 kbps ISDN, 10BaseT LAN interface, 3 Network Terminal 1, PIP, T.120 data collaboration during a VTC, 3 composite video inputs, 2 composite video outputs, and installation included when purchased with a BDS.	\$20,000.00
1-856	Integrated VTC System, Standard - Includes 1 line level audio input, 1 line level audio output, built in diagnostics, CIF resolution images up to 30 fps, far end camera control, G.711 with 3.1 kHz audio bandwidth using 48-64 kbps of the data bandwidth, G.722 with 7 kHz audio bandwidth using 48-64 kbps of the data bandwidth. G.728 with 3.1 kHz audio bandwidth using 16 kbps of the data bandwidth, H.243 MCU support with chair control, H.263 video quality, H.320 as current industry standard for most aspects of VTC over WAN, 384 kbps ISDN, PIP, T.120 data collaboration during a VTC, 1	\$31,000.00

	composite video input, 1 composite video output, and installation included when purchased with a BDS.	
1-857	Integrated VTC System, Enhanced - Includes 1 line level audio input, 1 line level audio output, built in diagnostics, CIF resolution images up to 30 fps, far end camera control, G.711 with 3.1 kHz audio bandwidth using 48-64 kbps of the data bandwidth, G.722 with 7 kHz audio bandwidth using 48-64 kbps of the data bandwidth. G.728 with 3.1 kHz audio bandwidth using 16 kbps of the data bandwidth, H.243 MCU support with chair control, H.263 video quality, H.320 as current industry standard for most aspects of VTC over WAN, 768 kbps ISDN, PIP, T.120 data collaboration during a VTC, 1 composite video input, 1 composite video output, and installation included when purchased with a BDS.	\$50,000.00
1-858	Integrated VTC System, Encryption Package - This item is an integrated add-on to one of the Integrated VTC Systems. It is not useable on its own and must be combined with a VTC package. Includes an Allied Signal KIV-7, a dial isolator, all required interface converters, switches to bypass the KIV-7 for clear VTC, and a control interface to allow the control system to select the VTC mode.	\$15,000.00
1-859	Self Contained View Station Package, Basic - Includes 1 line level audio input, 1 line level audio output, 1 AV cart for monitor and equipment, built in diagnostics, CIF resolution images up to 30 fps, echo canceller, full screen VTC, G.711 with 3.1 kHz audio bandwidth using 48-64 kbps of the data bandwidth, G.722 with 7 kHz audio bandwidth using 48-64 kbps of the data bandwidth. G.728 with 3.1 kHz audio bandwidth using 16 kbps of the data bandwidth, GUI interface, H.263 video quality, H.320 as current industry standard for most aspects of VTC over WAN, 512 kbps ISDN, 10BaseT LAN interface, 1 NTSC 27" monitor, 3 Network Terminal 1, T.120 data collaboration during a VTC, 3 composite video inputs, 2 composite video outputs.	\$11,000.00
1-860	Self Contained View Station Package, Standard - Includes 1 line level audio input, 1 line level audio output, 1 AV cart for monitor and equipment, built in diagnostics, CIF resolution images up to 30 fps, echo canceller, full screen VTC, G.711 with 3.1 kHz audio bandwidth using 48-64 kbps of the data bandwidth, G.722 with 7 kHz audio bandwidth using 48-64 kbps of the data bandwidth. G.728 with 3.1 kHz audio bandwidth using 16 kbps of the data bandwidth, GUI interface, H.263 video quality, H.320 as current industry standard for most aspects of VTC over WAN, 512 kbps ISDN, 10BaseT LAN interface, 1 NTSC 27" monitor, 3 Network Terminal 1, hand held infrared remote control, T.120 data collaboration during a VTC, 3 composite video inputs, 2 composite video outputs.	\$13,000.00
1-861	Self Contained View Station Package, Enhanced - Includes 1 line level audio input, 1 line level audio output, 2 AV carts for monitor and equipment, built in diagnostics, CIF resolution images up to 30 fps, echo canceller, full screen VTC, G.711 with 3.1 kHz audio bandwidth using 48-64 kbps of the data	\$17,000.00

	bandwidth, G.722 with 7 kHz audio bandwidth using 48-64 kbps of the data bandwidth. G.728 with 3.1 kHz audio bandwidth using 16 kbps of the data bandwidth, GUI interface, H.263 video quality, H.320 as current industry standard for most aspects of VTC over WAN, a 4 BRI IMUX with built in NT1s that include bonding, 512 kbps ISDN, 10BaseT LAN interface, 2 NTSC 32 monitors, 3 Network Terminal 1, T.120 data collaboration during a VTC, 3 composite video inputs, 2 composite video outputs.	
1-862	BDS Design Package, Basic - Includes bill of materials, block diagrams, facility layout, HVAC plan, labor cost, lighting plan, power plan and system write up for metropolitan DC area sites. For Basic BDS Systems.	\$22,000.00
1-863	BDS Design Package, Standard - Includes bill of materials, block diagrams, facility layout, HVAC plan, labor cost, lighting plan, power plan and system write up for metropolitan DC area sites. For Standard BDS Systems.	\$30,000.00
1-864	BDS Design Package, Enhanced - Includes bill of materials, block diagrams, facility layout, HVAC plan, labor cost, lighting plan, power plan and system write up for metropolitan DC area sites. For Enhanced BDS Systems.	\$37,000.00
1-865	Self Contained VTC, Basic, Installation Package - Includes installation SCVTC system with pre-installation interview and survey, maximum 2 day on-site installation in the DC metropolitan area, connection to GFE communication lines, full functional testing and training for up to 10 people.	\$1,150.00
1-866	Self Contained VTC, Standard, Installation Package - Includes installation SCVTC system with pre-installation interview and survey, maximum 3 day on-site installation in the DC metropolitan area, connection to GFE communication lines, full functional testing and training for up to 10 people.	\$2,500.00
1-867	Self Contained VTC, Enhanced, Installation Package - Includes installation SCVTC system with pre-installation interview and survey, maximum 3 day on-site installation in the DC metropolitan area, connection to GFE communication lines, full functional testing and training for up to 10 people.	\$2,870.00
1-868	Maintenance Program, Basic - Annual maintenance, 8an-5pm M-F, maximum 60 minute telephone response time, replacement parts shipped to site up. On-site service not included. Quantity required based on system cost 1 unit of maintenance per \$25,000 of system cost rounded up to whole numbers.	\$1,350.00
1-869	Maintenance Program, Standard - Annual maintenance, 8an-5pm M-F, maximum 60 minute telephone response time, replacement parts shipped to site up. On-site replacement of parts or software within 2 days. Quantity required based on system cost 1 unit of maintenance per \$25,000 of system cost rounded up to whole numbers.	\$2,160.00
1-870	Maintenance Program, Enhanced - Annual maintenance, 24 hrs/day 7 days/wk, maximum 60 minute telephone response time, replacement parts shipped to site up. On-site within 4 hours, replacement of parts or software within 2 days. Quantity required based on system cost 1 unit of maintenance	\$2,700.00

	per \$25,000 of system cost rounded up to whole numbers.	
1-871	Preventive Maintenance Program, BDS - Scheduled preventive maintenance to include powered-up and tested for all system functions, run available self diagnostics and results reports. The system will be cleaned and set to factory specifications including cameras, monitors, and audio systems. All projectors will be checked, aligned and memory locations verified. Operators will be surveyed for problems/questions. Test results will be documented. Repairs will be made as necessary. Repair parts will be invoiced separately unless covered by a remedial maintenance program. Local DC metropolitan area only	\$2,040.00
1-872	Preventive Maintenance Program, VYC - Scheduled preventive maintenance to include powered-up and tested for all system functions, run available self diagnostics and results reports. The system will be cleaned and set to factory specifications including cameras, monitors, and audio systems. Operators will be surveyed for problems/questions. Test results will be documented. Repairs will be made as necessary. Repair parts will be invoiced separately unless covered by a remedial maintenance program. Local DC metropolitan area only.	\$8,570.00
1-873	50 Plasma Display - color, computer and video inputs, built-in speakers, 1280x768 resolution, includes tilting wall mount.	\$18,810.00
1-874	VTC Encryption Package - provides everything required to engage in secure VTC. This includes an Allied Signal KIV-7, a dial isolator, all required interface converters, and switches to bypass the KIV-7 for clear VTC. Installation and training included in DC metropolitan area.	\$16,120.00
1-875	Geochron Clock - shows time around the world and if sun is up or down. Available in custom finishes. Installation not included.	\$1,850.00
1-876	IMUX - Three BRI IMUX for use with VTC systems. Includes built-in NT1 interfaces.	\$3,060.00
1-877	Infrared Receiver Headset Package - 8 infrared receiver headsets, 16 channel, use with IR-5C and IR-EMIT.	\$3,480.00
1-878	IR Modulator w/8 Headsets - Infrared audio transmitter, up to 5 audio channels, can be daisy chained for additional channels, bundled with eight 16 channel IR receiver headsets. Use with IR-EMIT.	\$10,510.00
1-879	IR Modulator, 5 channel - Infrared audio transmitter, up to 5 audio channels, can be daisy chained for additional channels. Use with IR-8H and IR-EMIT.	\$4,930.00
1-880	Monitor, 15", PC, RackMnt - 15" multi-scan, rack mountable monitor.	\$860.00
1-881	Monitor, 19" Multiscan - 19" multiscan monitor.	\$1,470.00
1-882	Monitor, 37" Multiscan - 37" multiscan monitor.	\$9,210.00
1-883	Monitor, 9", NTSC/PAL - 9" NTSC/PAL monitor.	\$1,820.00
1-884	NT1 NT1 interface adapter.	\$220.00

1-885	Projection Screen, 6.5x4.8, rigid - rear projection screen to be mounted into a wall, image area to 6.5 wide x 4.8 high.	\$1,740.00
1-886	Projection Screen, 6x4.5, fixed snapper - front projection screen, snapped to rigid aluminum frame, image area to 6 wide x 4.5 high.	\$940.00
